

T&D Specialties, Inc.

Precision CNC Machining

• Milling • Turning • Swiss

ISO 9001:2015 Certified • Prototype to Production •

Company Overview

T&D Specialties is a precision CNC machining company located in Oxford, Massachusetts. We specialize in smaller high-quality machined components for OEM manufacturers, focusing on tight tolerances, reliable delivery, and responsive service for prototype through production quantities.

Core Capabilities

- CNC Milling (& Production milling)
- CNC Turning (Multi-axis turning)
- Swiss-Type Machining up to 32mm
- Prototype to Production Runs
- Tight Tolerance Machining
- Assembly & Secondary Operations

Materials Machined

- Aluminum
- Stainless Steel
- Alloy Steels
- Brass
- Engineering Plastics (Delrin, Nylon, PTFE, etc.)

Key Equipment

- Brother CNC Rotary Pallet Vertical Machining Centers
- Mori Seiki NLX1500 CNC Lathes
- Star SR-32J Swiss-Type Lathes
- Bar Feeders & Automated Production Capability
- Cobots Automation
- CAD/CAM Programming (Mastercam)

Industries Served

- Medical Devices
- Semiconductor Equipment
- Robotics & Automation
- Industrial Equipment
- Defense & Aerospace
